Website updates

We are working on the w4rng.com site and welcome any suggestions you may have. Be sure to check it out here: <http://www.w4rng.com>

Squelch Tail

The Squelch Tail is Alive

Daniel / kf4eok has volunteered to produce the newsletter. Please send any articles that you would like to see in the newsletter to kf4eok@gmail.com

Work Day

The work day on March 17, 2018 on the Dames point bridge went well. The receive antenna was replaced. There was a beam antenna installed for the transmit side of the remote site.

JACKSONVILLE FREE HAMFEST

The Free Flea went well. The morning started off just a little on the chilly side but as the sun rose above the tree line the day warmed up nicely. I know there was the taste of deals in the air. I personally went home with three nice mobile transceivers that I found while I was there. If you missed out on the fun, then I hope you can find the time to join us at the next Jacksonville Free Hamfest on Saturday, October 27th
